## Product Description

### Product Description:

The Diesel Generator is a reliable and robust generating equipment that provides power in a range of 20-1000kW. It is manufactured with high efficiency and precision to ensure outstanding performance over long periods of time. The Diesel Generator is powered by a diesel engine designed to run at either 1500rpm or 1800rpm, providing a frequency of 50Hz or 60Hz. The generator is also equipped with a 1 Year warranty for added peace of mind.

The Diesel Generator is an ideal choice for those looking for reliable and efficient power generation for a variety of purposes. This generator is designed to handle a wide range of operating conditions and is suitable for a variety of applications. With its high efficiency, robust design and reliable performance, the Diesel Generator is a great choice for any power generation needs.

### Features:

Product Name: Diesel Generator

Noise Level: Low

Warranty: 1 Year

Voltage: 400V/230V

Speed: 1500rpm/1800rpm

Fuel: Diesel
